

FARMERS' UNION BUREAU.

Notice, Farmers' Union.

Clemson College Institute car will start out on their canvass over the upper half of South Carolina about the first of July, and we want the Farmers' Union to make arrangements to meet their opportunities at every step and have a good Farmers' Union meeting at the wind-up of every Clemson meeting. Where the counties have been organized you should get up a good roll of new members at these meetings, and where there are no unions get up some real good men and organize a union at the close of every institute.

About all the efforts of Clemson College and the average farm papers, too, are directed towards producing good crops. The Farmers' Union should come along behind them and tell the farmers how to turn the profits of these good crops into the pockets of the men that grow the crops, for there is no gain to the grower on these good crops of cotton that Clemson teaches you how to grow if the non-producers continue to get the profits.

We advise you to make side application of highest grade ammoniated fertilizers when your corn or cotton stalks are about half grown and nitrate of soda later when giving the crops the last ploughing. This side application of soluble fertilizers at the rate of 150 pounds to the acre has been known to increase the yield one-third.

Under present conditions it is now out of the question to make an over-production of cotton this season. Work the crops well, fertilize judiciously and stand by the farmers' prices in selling and all will be well with you and your family this round.

No doubt you are paying too much for your fertilizer compounds this season and you will continue doing that kind of a back stunt until you get your chemicals in large shipments and do your own mixing at home. In order to get your fertilizer materials at rock bottom figures you should hand in your orders at once to your business agent in order to have your goods at hand on time for next crop and at the very lowest figures.

Our union warehouses for the working farmer are bound to do good to every community that will go at it in the right way. This co-operative way of laboring together with both your hands and minds is union, realized and materialized. In this work you learn the true value of co-operation in a small way that will lead the way to larger efforts upon the same plan.

Fifty dollars for one bee may seem an extraordinary price, but such was the sum paid for a queen bee recently imported from Switzerland by an enterprising apiarist in the Indian Territory.

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weakness and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional endorsement of each of its several ingredients—worth more than any number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, free. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.

Slapped Northerner's Face.

Richmond, Va., June 8.—An interesting, not to say sensational, incident of the reunion became known to a few persons Tuesday. According to the story, a prominent Tennessee veteran, Rush Pearson, figured as the hero of the affair.

Pearson and several old goldiers were in a store on Broad street, when a New Yorker, whose name was not learned and who had evidently been drinking, began making himself disagreeable, cursing and applying even more offensive epithets to Confederate soldiers in general. Finally Pearson, becoming disgusted, approached the Northerner and, catching him by one ear with one hand, with the other soundly slapped his jaws and rebuked him for his offensive language and gratuitous insults. The man did not resent the slap.

The conclusion of the incident was the expression of commendation and appreciation of Comrade Pearson's act by a North Carolina veteran, who witnessed the incident. Approaching the manly Tennesseean, the Carolinian drew a gold ring from his own finger and slipped it on one of Pearson's fingers, with the wish that every time he looked at it he would recall the incident.

Pineules for the kidneys and bladder. They bring quick relief to backache, rheumatism, lumbago, tired worn-out feeling. They produce natural action of the kidneys in filtering waste matter out of the blood. Thirty days' treatment \$1. Money refunded if Pineules are not satisfactory. Sold by Dr. J. W. Bell, Walhalla; W. J. Lunney, Seneca.

Large Production of Steel.

Pittsburg, June 8.—Despite the rumors in the iron and steel market abroad, as well as in this country, a canvass of the industry warrants the statement that the last half of 1907 and the first half of the year 1908 will witness the largest producing capacity in the history of the United States and Canada. It is estimated that new furnace construction will add at least two million tons to the prospective capacity of the country.

Headache and constipation disappear when Ring's Little Liver Pills are used. They keep the system clean, the stomach sweet. Taken occasionally they keep you well. They are for the entire family. Sold by Dr. J. W. Bell, Walhalla; W. J. Lunney, Seneca.

Negroes Lynch Negro.

A mob, made up mostly of negroes, shot and killed a negro named Geo. Hudson, near Trenton, last Monday, as Hudson was fleeing through a swamp from the mob. The night before Hudson went to the home of Will Mickens, a negro, and knocked him unconscious in bed. He was feeling for the temple of Mickens' wife to deal her a fatal blow when she awoke and gave the alarm, catching the blow on her arm. Hudson had been twice tried for murder and was otherwise notorious.

Summer coughs and colds yield at once to Bee's Laxative Cough Syrup. It contains honey and tar, but no opiates. Children like it. Pleasant to take. Its laxative qualities recommend it to mothers. Hoarseness, coughs, croup yield quickly. Sold by Dr. J. W. Bell, Walhalla; W. J. Lunney, Seneca.

Has 60,000 Members.

Jackson, Miss., June 8.—The Mississippi branch of the Farmers' Educational and Co-operative Union claims that its membership has reached the 60,000 mark and is still steadily increasing, with an efficient corps of organizers in the field, and many sections yet to be visited for the purpose of enlarging the organization.

Sixty thousand members does not mean, however, that the number quoted represent the adult white farmers. In fact, it is doubtful if the books of the Farmers' Union would show more than 25,000 farmers of voting age, for women and children are admitted to the organization and counted as members. That the growth of the Union has been rapid, however, is undeniable, and the membership consists chiefly of small farmers in rural precincts. Large landowners and planters are conspicuous by their absence in the membership.

The St. John Hotel in Charleston, owned by Mrs. W. A. Lawton, was sold Wednesday to a syndicate of business men of that city, the purchase price being \$60,000. The new company will spend a large sum of money in improving the property.

Proving He Wasn't Drunk.

Sidney Dallas, of Melbourne, told a group of reporters in Tremont temple, Boston, this temperance story: "A Melbourne husband stayed out till about 3 a. m. This man, when he got home, thought that he would go boldly to the bathroom and take a bath. That would remove from his wife's mind any suspicion as to his condition. It would show her, in a word, that he was all right. So he undressed, filled the tub and plunged in. Hot and enfevered as he was he enjoyed the bath. As he splashed, and scrubbed and puffed, he heard a slight noise and, looking up, saw his wife in the doorway. His wife was regarding him with an expression of unspeakable contempt. He was rather amazed at that. But he said nothing. He lowered his head and went on scrubbing. "Well, what are you doing?" she asked. "Can't you see what I'm doing?" he answered. He rubbed on some more lather. "I'm taking a bath." She sniffed and said, as she turned to go: "Why don't you take off your underclothes, then?"

The bites and stings of insects, tan-sunburn, cuts, burns and bruises are relieved at once with Pineasol Carbolyzed. Acts like a poultice and draws out inflammation. Try it. Price 25c. Sold by Dr. J. W. Bell, Walhalla; W. J. Lunney, Seneca.

Circulates Hoarded Silver.

Pulaski, Tenn., June 6.—Fearing he would be murdered for his money, Willis Smith, 84 years old, has flooded the county with \$30,000 in quarters and half dollars, which he has been hiding in fruit jars for many years. The money was coined two generations ago, but is not worn. Many years ago Smith put some money in a bank and the cashier at once paid it out on a check. Smith saw this and withdrew his money, saying he would not do business with a concern that would not keep his money "better than that."

A Lesson In Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. Dr. J. W. Bell.

Explosion Kills Five.

Kankakee, Ill., June 6.—At least five persons are dead as a result of the explosion of a carload of giant powder on the Chicago, Indiana and Southern Railway, at Reddick, at five o'clock this afternoon.

A car loaded with matones and coupled to the powder car caught fire and a crowd gathered. It is supposed the powder ignited from this burning car.

Bodies of the dead were torn to fragments. The explosion was felt for 20 miles.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied. Dr. J. W. Bell.

Clemson Scholarships.

Governor Ansel recently received a letter from President Mell, of Clemson College, asking for a ruling on a very interesting question. He wished to know what disposition should be made of scholarships at Clemson when the beneficiary required only three years to complete the course.

Governor Ansel referred the matter to the Attorney General, and Mr. Lyon's official opinion is that the unexpired part of the scholarship might be used in postgraduate work. This is quite an important matter, as the number of scholarships has increased largely.—The State, June 5.

So Tired

It may be from overwork, but the chances are its from an inactive LIVER.

With a well conducted LIVER one can do mountains of labor without fatigue.

It adds a hundred per cent to ones earning capacity.

It can be kept in healthful action by, and only by

Tutt's Pills
TAKE NO SUBSTITUTE.

Teachers to Meet at Chick Springs.

For the first time in a number of years the State Teachers' Association will meet as a separate and independent organization, and for this reason those who are interested in its welfare are looking forward to the next meeting with the confident belief that it will be a great success.

The place of meeting is a very fortunate one, and the attractions of Chick Springs, together with the strong program announced, ought to draw a large and representative body of teachers. Much careful thought has been given to the topics and speakers on the program, and progressive teachers who wish to keep abreast of the times in the educational affairs of the State and nation can scarcely afford to be absent from this meeting.

All persons and teachers interested in the cause of education may become members of the association by paying the annual dues, which are \$1 for men and 50 cents for women. Application may be made to E. S. Dreher, Columbia, S. C., President of the Association, or L. W. Dick, Abbeville, S. C., Secretary.

The meeting will be held June 24-26. Tickets on sale June 21 to 26, good until 29th. The railroads have granted a rate of one fare going and one-third fare (plus 25 cents) returning. Buy your ticket to Taylor's, S. C., and ask the agent for a certificate. If there are less than 100 people at the meeting you will not receive the one-third rate on the return. To all those holding association cards the hotel has granted a rate of \$1.50 per day from June 21 to 29th. Hack fare from Taylor's to hotel 25 cents; return 25 cents. Transfer of trunks same price as passengers. Write to President Dreher or Secretary Dick for full program and any other information not here given.

Prices of beef and other meats are reported to be advancing.

There is a great slaughter of dogs going on York county on account of a mad dog scare.

A movement has been begun in Elloree to establish Ansel county from portions Orangeburg and Berkeley counties.

Governor-elect Hoke Smith, of Georgia has declined the offer of a Chicago association to go on the lecture platform.

The large new army balloon sailed from Washington across Maryland to Linglestown, Pa., 140 miles, in 4 hours and 37 minutes.

Dr. J. W. Babcock, superintendent of the State hospital for the insane, who has been seriously ill for some time, is reported to be recovering.

A careful wife will always keep supplied with BALLARD'S SNOW LINIMENT

A Positive Cure For Rheumatism, Cuts, Old Sores, Sprains, Wounds, Stiff Joints, Corns, Bunions and all ills.

SHE KNOWS.

Mrs. C. H. Runyon, Stanberry, Mo., writes: "I have used Snow Liniment and can't say enough for it, for Rheumatism and all pains. It is the most useful medicine to have in the house."
